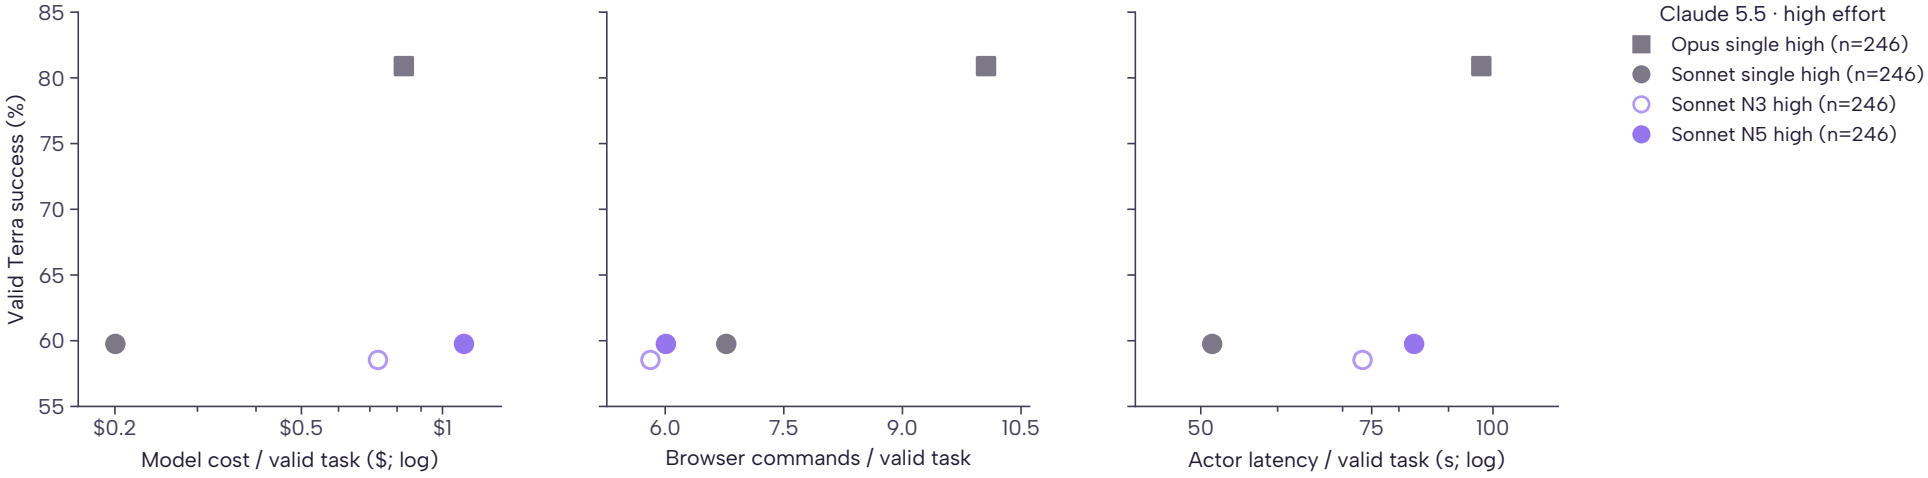
Online-Mind2Web · Claude · GPT-5.6 Terra judge · valid tasks only

BrowserCode · common-valid intersection



All metrics use the same 246 tasks valid for every method. Valid failures are included; judge fees excluded.
Opus/Sonnet 5.5, high effort, 12,288 output tokens and 30 decisions. Browser commands are selected executable batches.
Some episodes were invalid at frozen budget limits; validity conditioning and live collection windows limit causal comparisons.
