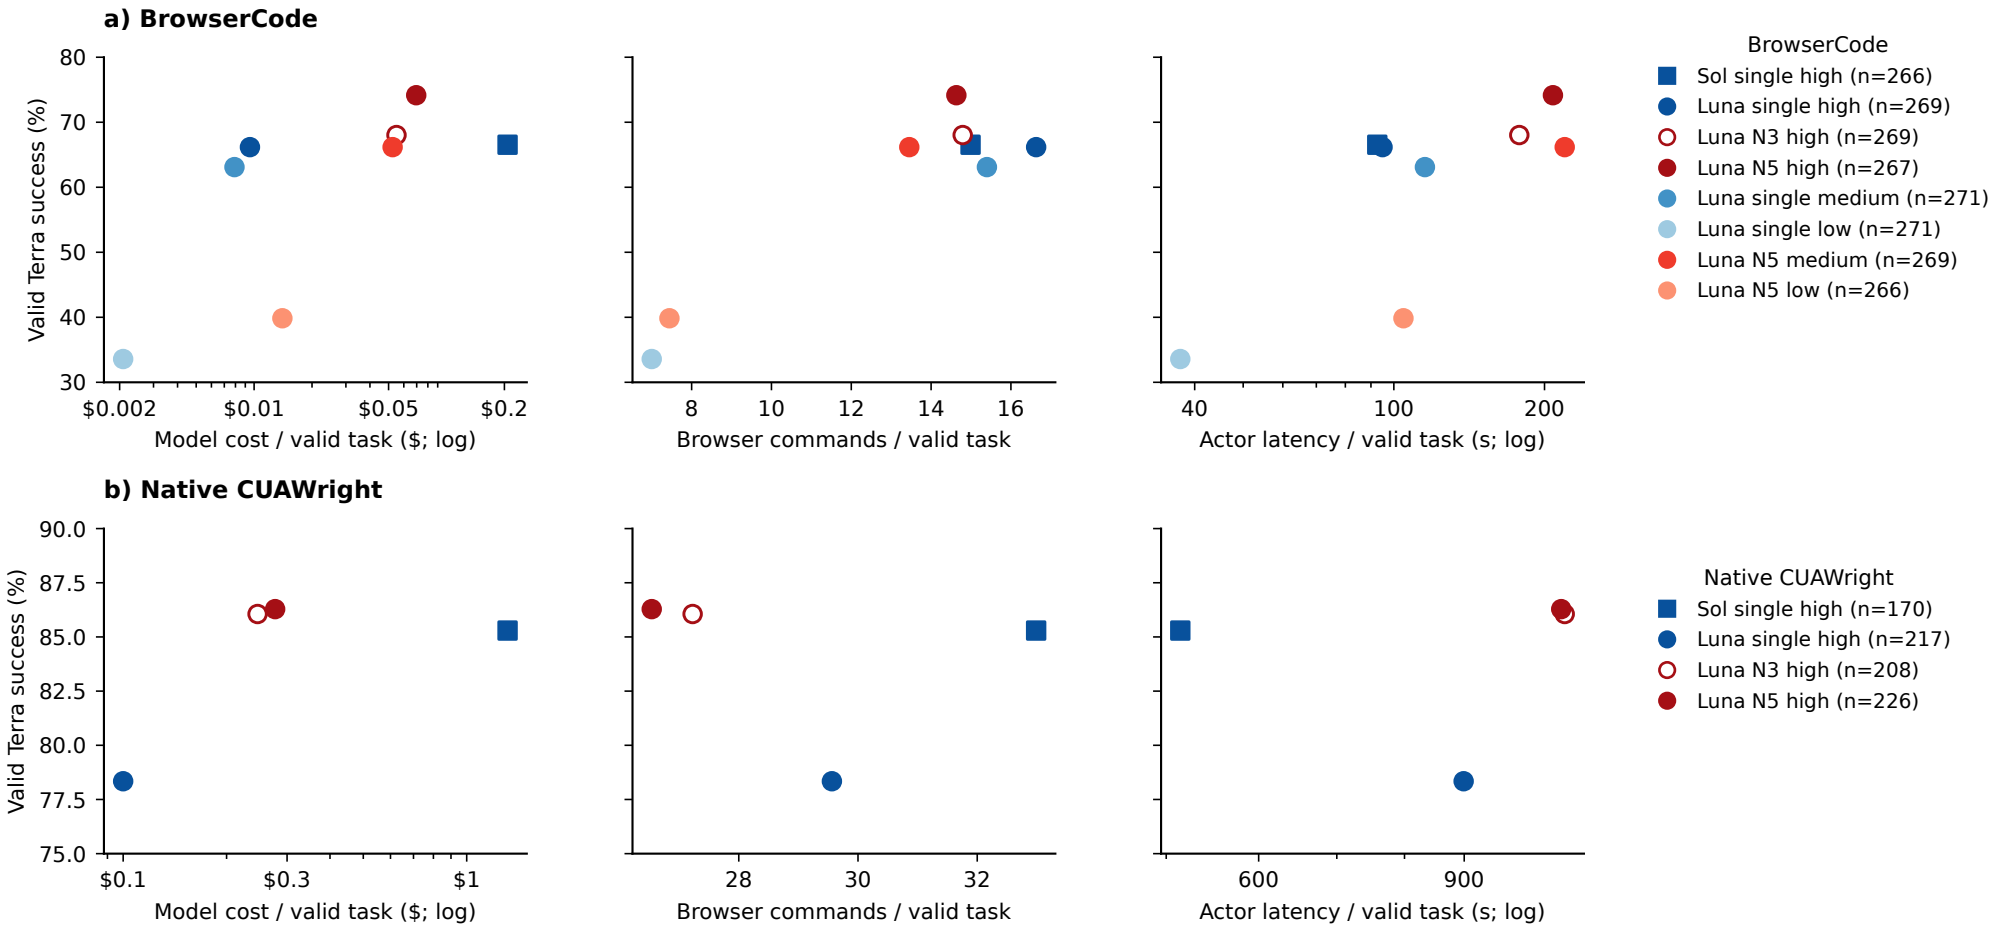
Online-Mind2Web · GPT-5.6 Terra terminal judge · valid tasks only



Success and actor metrics use valid tasks (successes and failures); valid subsets differ. Judge fees excluded.
Recovered valid tasks retain work from their original and prescribed retry; missing measurements stay missing.
Medium/low provisional; collection windows and measurement scopes differ. Native evidence-selected subset; 276 original-valid runs ungraded.
Actor latency coverage: Luna N5 low 262/266 valid tasks.
